

HYPNOS[®]

Wake up Beautifully.

LUXURY
FABRIC COLLECTION
for divans and headboards

PROUDLY HANDCRAFTING BRITISH BEDS SINCE 1904

Since 1904, Hypnos has been synonymous with craftsmanship and comfort. Every piece is upholstered by hand, using responsibly sourced timber and the finest materials, ensuring you have a creation of enduring quality and beauty that stand the test of time.

Hypnos presents a considered palette of colours and textures, each chosen to bring a sense of luxury and individuality to the bedroom. From soft, calming tones to rich, dramatic shades, the fabrics are designed to enhance interiors adding depth, style, and refinement.

Fabrics in this collection have been specially curated, with a choice of natural fibre weaves, unique design exclusives, and innovative stain-resistant finishes, such as AquaClean, ensuring they retain a fresh, immaculate look for years to come.

For choice and inspiration, visit our website to access our complimentary fabric sample service.

We tailor-make furniture by hand in our workshops, so are able to create bespoke requests using your selected upholstery fabric, as long as it meets UK fire regulations.

Please contact us if your beds are for contract or hospitality purposes as they will need to meet Crib 5, medium hazard, fire retardancy standards.

AMALIE

91% Polyester, 9% Polyacrylic

Design exclusive to Hypnos

Patterned fabric not recommended for HideAway™ or divans with drawers

Fabric Care

Should spills occur, gently blot the area straight away with a dry cloth or paper towel. Regular brushing with a soft brush will help keep your fabric free from dust and fluff.

For fabrics treated with stain-resistant technology, you can carefully spot-clean using a warm solution of mild household soap and water. Always test any cleaning solution on a discreet area first to ensure the beauty of the fabric is preserved.

aquaclean[®]
fabrics for living

A selection of our fabrics have been treated with Aquaclean[®] technology, a revolutionary treatment applied to the fibres of the fabric before the fabric itself is produced. This allows you to clean stains using water only, making maintenance quick and simple. Aquaclean[®] helps to remove the majority of household stains (like wine, ink, sauce, fat, mud, chocolate, cream, etc.) making life easier and giving you more time for the more important things.

Aquaclean[®] fabrics carry the OEKO-TEX[®] Class I seal, certifying that they are suitable for even the most delicate skin, such as that of babies. This is the most demanding quality standard for the detection of harmful substances in textiles.

Hypnos headboards for domestic use comply with BS 5852, low hazard, whilst divan bases are tested to BS 7177, low hazard. Hypnos reserve the right to update or discontinue any fabric shown as necessary without notice.

Slight shade variations are to be expected from any fabric sample to the finished product. It should be noted that fabrics such as velvets will reflect light and look different from varying angles.
